BSc (Hons) Dietetics

Material Information Summary for 2020/21 Entrants

Confirmed at 28th February 2019

General Information

Award
Bachelor of Science (with Honours) Dietetics

Contained Awards
Bachelor of Science (with Honours) Nutritional Studies
Bachelor of Science Nutritional Studies
Diploma of Higher Education Nutritional Studies
Certificate of Higher Education Nutritional Studies

Awarding Body
Leeds Beckett University

Level of Qualification & Credits
Level 6 of the Framework for Higher Education Qualifications, with 120 credit points at each of Levels 4, 5 and 6 of the UK Credit Framework for Higher Education (360 credits in total)

Course Lengths & Standard Timescales

The standard start date for Leeds Beckett University induction week is reproduced below and relates to the majority of students starting a course in September 2020. A proportion of courses have alternate start dates which are displayed on the online prospectus and additionally will be notified to the students concerned via the offer letter. Non-September starters will also have their start dates confirmed in their offer letters.

- 3 years (full time, campus based)
- Starts 21st September 2020/ Ends August 2023

Exception to Standard Delivery:
The following elements are delivered outside the standard undergraduate academic calendar:

- This course has an approved exception from the standard delivery calendar to accommodate placements.
- There are also modules that span both semesters at level 4, 5 and 6.

Location(s) of Delivery
City Campus, Leeds (plus location of work placement, if applicable)

Entry Requirements
Admissions criteria are confirmed in your offer letter. Details of how the University recognises prior learning and supports credit transfer are located here:
Course Fees

Course fees and additional course costs are confirmed in your offer letter.

Timetable Information

Timetables will be made available to students during induction week via:

i) The Student Outlook Calendar
ii) The Student Portal
iii) The Leeds Beckett app

Any difficulties relating to timetabled sessions can be discussed with your Course Administrator.

Policies, Standards and Regulations

Course regulations will comply with University Assessment Regulations with the following exceptions; to comply with the requirements of the BDA the following will apply:

- Students must obtain at least 40% in each module. In addition students must obtain at least 35% in each component of assessment within a module. A mark of between 35% and 39% may be compensated by the other components of assessment within the module.
- 80% attendance is required for all modules, except Professional Development modules where 90% attendance is expected, to comply with Professional Expectations and in line with HCPC Standards for Education and Training, section 3.15. Students will be expected to retrieve any attendance below these requirements through reflective pieces of work which will be evidenced in their portfolios at each level within the Personal and Professional Development modules.

To comply with Health and Care Professions Council (HCPC) Standards of Education and Training the university have explicit effective student complaints procedures (http://www.leedsbeckett.ac.uk/studenthub/complaints.htm) including appeal about an academic decision

As this is a professional course students are expected to act in a professional manner at all times in line with the university policy, regulations and procedures relating to professional suitability or fitness to practice (http://www.leedsbeckett.ac.uk/public-information/student-regulations/)

Placement Information

Summary

Students must successfully complete all practice placement
elements of the course in order to achieve the target award.

**Length**
- Practice Placement A is at the end of Year 1 (3 weeks)
- Practice Placement B in year 2 (13 weeks)
- Practice Placement C in year 3 (12 weeks)

**Location**
Not Specified

### Professional Accreditation or Recognition Associated with the Course

**Professional Body**
British Dietetic Association (BDA)/ The Health and Care Professions Council (HCPC)

**How is Accreditation/ Recognition Achieved?**
The Course is approved by the Health and Care Professions Council (HCPC) and accredited with the British Dietetic Association (BDA)

**Course Accreditation/ Recognition Period**
Current and Ongoing

**How is Accreditation/ Recognition Achieved?**
Successful completion of this course provides eligibility to apply for registration with the HCPC. It is a legal requirement that anyone who wishes to practise using the title dietitian is on the HCPC register.

### Course Overview

**Aims**

The aims of the programme are to:

1. To provide a progressive and cohesive programme of applied learning enabling students to understand the relationship between nutrition and health and apply this knowledge practically for the benefit of the individual and the community. The course of study will lead to eligibility to apply for registration in Dietetics with the HCPC.

2. We aim to develop the students’ ability to critically evaluate dietetic practice based on current best evidence and participate in multi-disciplinary work and to develop to a high level the professional skills and competencies essential for graduates in the rapidly changing environment of health provision.

3. The course aims to enable students to engage in continuing professional development and prepare for lifelong learning.

4. Graduates should possess strong communication, presentation and IT skills in order to function effectively and efficiently within the varied and demanding places of work. Additionally, graduates should possess the necessary research skills in order to contribute and further develop the evidence base for nutrition and dietetics.

5. On qualification the new graduate should be capable of contributing to clinical governance through the delivery of evidence-based, client-centred health-care. The provision of health-care is no longer the sole responsibility of the NHS, therefore graduates also need to be
familiar with working within multi-agency settings such as local authorities and voluntary organisations.

**Course Learning Outcomes**

At the end of the course, students will be able to:

1. Integrate theoretical concepts from biological, clinical, nutritional and social sciences with practical application to moderate food and nutritional habits to apply the science of nutrition to individuals and groups by translating theoretical concepts and principles into relevant nutritional advice.
2. Develop strong interpersonal skills to enable effective communication through varying media, including the use of information technology, to a wide diversity of individuals and groups while adhering to the HCPC Standards of Performance, Conduct and Ethics and practice within legal and ethical boundaries.
3. Demonstrate a scientific and critical approach to the application of diet therapy in practice to maintain and enhance health both through the treatment of disease by diet and the promotion of good nutrition.
4. Critically reflect, self-evaluate and commit to the use of research in the evaluation and improvement of practice whilst recognising the potential and limitations of nutritional sciences as a practice based discipline.
5. Understand the educational skills and qualities that enable the practitioner to empower individuals to take control of their food choice in relation to their health whilst appreciating their diverse backgrounds.
6. Use Enterprising skills to assess, advise and enable individuals and groups to make appropriate and safe food provision.

**Teaching and Learning Activities**

**Summary**

Teaching takes place in multi-purpose rooms with additional specialised facilities for technical, clinical and interpersonal skills development. In addition the course has access to a purpose built catering laboratory.

Teaching approaches include: staff-led lectures and workshops, student led seminars and workshops, practical work, study packs, tutorials, clinically-based teaching; case studies, problem solving exercises; reflective learning techniques, computer-assisted learning, simulated practice and inter-personal group skills.

Hand-outs/booklets are sometimes used however, we do utilise a more diverse range of online tools to support student learning. We use a considerable amount of computer-based learning, which enriches the versatility of the delivery.

Problem solving exercises and case studies enable students to integrate their knowledge and increase their interest in the subject matter. Oral communication and the ability to work effectively in groups are developed by assignments such as group presentations and seminars. Interpersonal skills and interviewing techniques are developed in workshops.

During the practice placements, students will be required to develop portfolios and learning logs of work experience.

**Your Modules**
(Correct for students progressing through the programme within standard timescales. Students who are required to undertake repeat study may be taught alternate modules which meet the overall course learning outcomes. Details of module delivery will be provided in your timetable).

**Level 4 Core Modules (2020/21 for FT students)**

- Food & Food Science
- Food & Society
- Human Physiology
- Nutrition
- Nutritional Biochemistry
- Personal Development & Communication Skills for Dietitians
- Practice Placement A

**Level 5 Core Modules (2021/22 for FT students)**

- Applied Clinical Dietetics
- Genetics and Lifestyle Related Conditions
- Human Metabolism
- Nutrition Support
- Practice Placement B
- Professional Development for Dietitians
- Research Methodology, Statistics and Evaluation
- Social Sciences

**Level 6 Core Modules (2022/23 for FT students)**

- Clinical Effectiveness and Outcomes
- Mental Health in Practice
- Nutrition Strategies
- Paediatrics in Practice
- Practice Placement C
- Research Project
Competent Practitioner

Assessment Balance and Scheduled Learning and Teaching Activities by Level

The assessment balance and overall workload associated with this course are calculated from core modules undertaken by a typical student. They have been reviewed and confirmed as representative by the Course Director.

A standard module equates to 200 notional learning hours, which may be comprised of teaching, learning and assessment, placement activities and independent study. Sandwich placement years spent out of the University are not be included in the calculation unless they are credit bearing and attributed to a level of the course. Modules may have more than 1 component of assessment.

Level 4 is assessed by a broadly even mix of coursework and examinations with some practical assessments

Level 5 is assessed by coursework predominantly with some examinations and practical assessments.

Level 6 is assessed by coursework predominantly with some examinations.

Learning Support

If you have a question or a problem relating to your course, your Course Administrator is there to help you. Course Administrators works closely with academic staff and can make referrals to teaching staff or to specialist professional services as appropriate. They can give you a confirmation of attendance letter, and a transcript. You may also like to contact your Course Rep or the Students’ Union Advice team for additional support with course-related questions.

If you have any questions about life at our University in general, call into or contact the Student Hub on either campus to speak to our Student Experience Team. This team, consisting of recent graduates and permanent staff, are available to support you throughout your time here. They will make sure you have access to and are aware of the support, specialist services, and opportunities our University provides. There is a Student Hub on the ground floor of the Rose Bowl at City Campus and one in Campus Central at Headingley. You can also find the team in the Gateway in the Leslie Silver Building at City Campus. The telephone number is 0113 812 3000, and the e-mail address is StudentHub@leedsbeckett.ac.uk.

Within MyBeckett you will see two tabs (Support and Opportunities) where you can find online information and resources for yourselves. The Support tab gives you access to details of services available to give you academic and personal support. These include Library Services, the Students’ Union, Money advice, Disability advice and support, Wellbeing, International Student Services and Accommodation. There is also an A-Z of Support Services, and access to online appointments/registration.
The **Opportunities** tab is the place to explore the options you have for jobs, work placements, volunteering, and a **wide range of other opportunities**. For example, you can find out here how to get help with your CV, prepare for an interview, get a part-time job or voluntary role, take part in an international project, or join societies closer to home.
